***This survey gives you the chance to express your views on the impact of the pandemic on Solvency II from a practical perspective.***

The [IFoA Solvency II Practical Review Working Party](#) is working hard to identify the key practical issues posed by Covid-19 to the general insurance industry.

The survey will help gather the relevant information to inform the Working Party's key areas of focus and recommendations, and contribute to the GIRO Working Party paper. It is hoped that the PRA will consider this when reviewing Solvency II resilience in light of the pandemic.

*Your individual answers are not attributable and will not be shared with anyone outside of the Working Party.*

Following conclusion of the survey, the aggregated results from the survey will also be presented at GIRO 2020.
