Johnny Timpson  
Insurance Sector Champion

09 February 2018

*Dear Johnny,*

I am delighted to offer you the role of Sector Champion and hope you will join me in my drive to improve access to products and services for disabled people.

You have been chosen because your networks, expertise and experience and early plans and priorities clearly demonstrate your passion and ability to advocate for improving accessibility for disabled people. I hope you will build on your priorities and collaborate with other Sector Champions. My officials will support you by sharing information, making links to organisations representing disabled people, and helping to build momentum across the group of champions – while recognising that you are the expert on your own sector.
